

SYMANYSIS™

**Product Data Sheet****Compound Name****SB590885****Structure****CAS Number**

[ 405554-55-4 ]

**Chemical Formula:**C<sub>27</sub>H<sub>27</sub>N<sub>5</sub>O<sub>2</sub>**Molecular Weight:**

453.54

**Background information**

Mode of Action	Kinase inhibitor
Predominant Target(s)	B-Raf
Published Activity	Show selective inhibition of mitogen-activated protein kinase activation, proliferation, transformation, and tumorigenicity when exposed to SB-590885
Development stage	Clinical Development
